# WHO WE ARE

Backed by decades of experience and a strong focus on innovation, Alfares International Tents specializes in the manufacturing, supply, and installation of high-quality tents, marquees and modular structures across the UAE, Middle East and Worldwide. Delivering reliable solutions to businesses across the region has supported the company's steady growth since its inception.

Headquartered in the UAE, we are industry leaders with operations across five countries, a workforce of 1,200+ employees, and a 1.5 million square-foot production facility. Our state-of-the-art capabilities enable us to deliver large-scale, high-performance tent, marquee, and modular solutions across regional and international markets.

We work with global leaders and organizations across a wide range of industries, including events and entertainment, government, military, aviation, and other specialized sectors, providing dependable solutions built for performance, scale, and long-term use.

## OUR VISION

To be a globally recognized leader in engineered tent and modular solutions, setting industry benchmarks in quality, reliability, and innovation. We envision shaping adaptable environments that support large-scale projects, evolving needs, and long-term performance across markets worldwide.

## OUR MISSION

To serve clients worldwide by delivering high-quality, custom-engineered tent and structural solutions that meet diverse functional and environmental requirements. Through technical excellence, thoughtful design, and dependable execution, we support events, infrastructure, and projects of all scales, while operating with integrity and a commitment to sustainable growth and societal needs.

 **OUR VALUES**

We believe in delivering engineered solutions that combine quality, reliability, and purpose. Our work is guided by a commitment to technical excellence, integrity, and accountability in every project we undertake worldwide. We value close collaboration with our clients, enabling us to design solutions that respond to real operational needs across diverse environments and complex requirements. Through continuous improvement, responsible resource use, and a focus on sustainable practices, we aim to minimize environmental impact while ensuring consistent performance at scale and long-term value for our partners, communities, and the environments in which we operate.

# OUR PRODUCT CATALOGUE

# A-FRAME TENT

# A-FRAME TENT

## CLASSIC DESIGN AND MODERN FUNCTION

Clear Span Width:	70 - 75 M
Heights:	13 - 20 M
Maximum Length:	Customizable

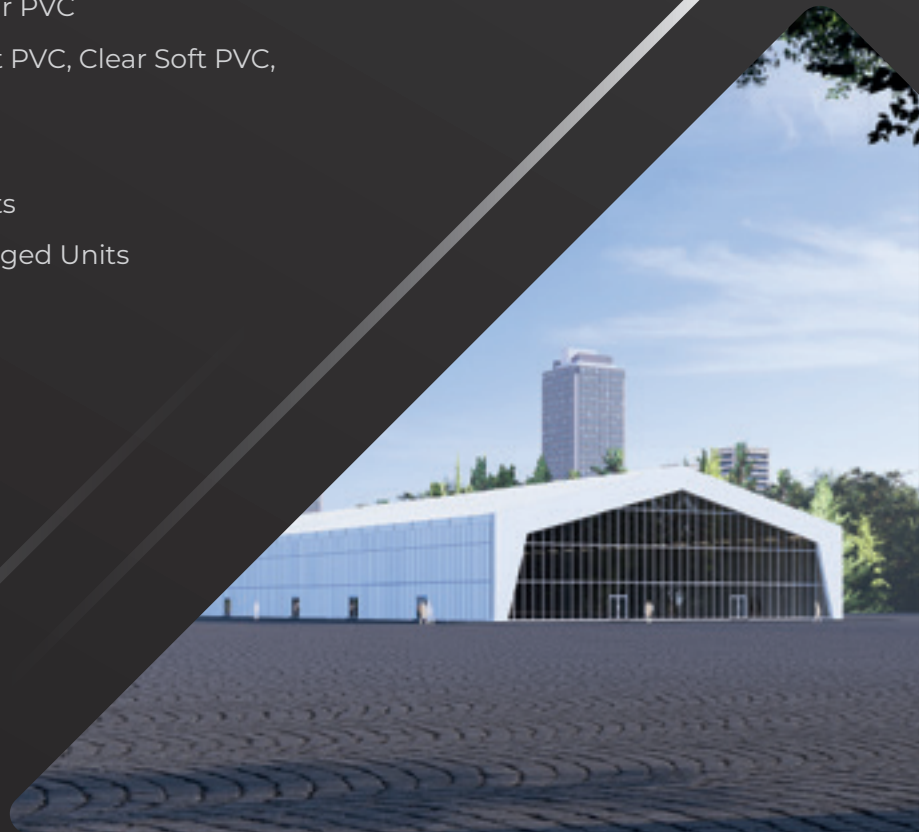

The A-Frame Tent is built for versatility and practicality, making it suitable for a wide range of events, from corporate exhibitions to storage solutions. Its classic peaked design offers a clean and professional look, ideal for both functional and decorative use.

Constructed with durable PVC-coated fabric and a strong aluminum or steel frame, it's engineered to handle all weather conditions. The tent can be extended to any length, and its modular structure allows for quick setup and flexible configurations.

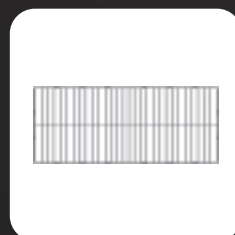

### SPECIFICATIONS
