Alfares International Tents & Construction Metal LLC is a **globally recognized leader** in providing **end-to-end solutions** for high-quality structural systems. From **design and manufacturing** to **supply and installation**, the company **delivers tents, marquees, temporary structures, and modular systems** built for diverse applications worldwide.

Backed by **decades of experience** and a strong focus on **innovation**, Alfares International delivers reliable, large-scale solutions across the **UAE, the Middle East, and international markets.**

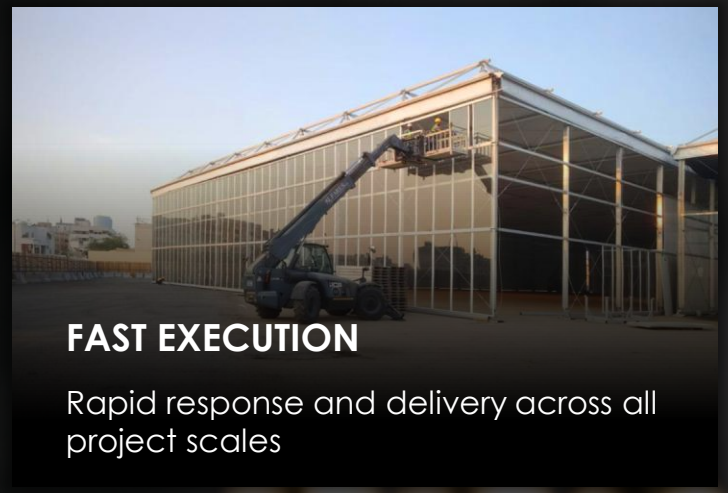

Headquartered in the UAE, the company operates across **five countries** with a workforce of over **1,200+ employees** and a **2.8 million square-foot production facility.**

Serving global organizations across industries such **as events, government, military, aviation, and specialized sectors,** Alfares International is committed to delivering high-performance, scalable solutions built for **durability and long-term use.**

OUR CORE STRENGTHS

FAST EXECUTION

Rapid response and delivery across all project scales

END-TO-END CAPABILITY

Fully integrated solutions from concept to dismantling

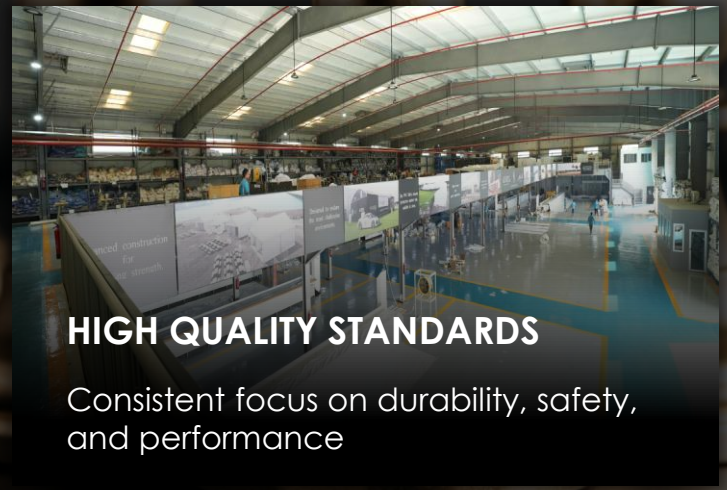

MANUFACTURING SCALE

2.8 million sq ft production ecosystem enabling large-scale delivery

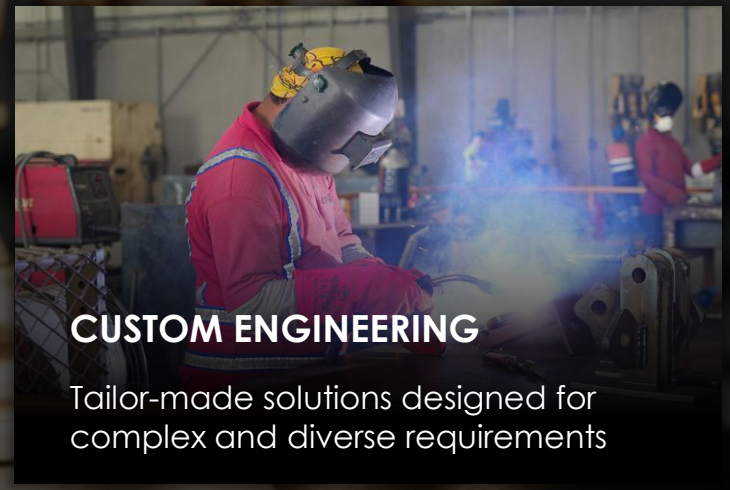

DECADES OF EXPERIENCE

Deep industry expertise built over years of execution

HIGH QUALITY STANDARDS

Consistent focus on durability, safety, and performance

CUSTOM ENGINEERING

Tailor-made solutions designed for complex and diverse requirements

SERVICES WE OFFER

DESIGN & ENGINEERING

Custom concepts and structural innovation tailored to your vision

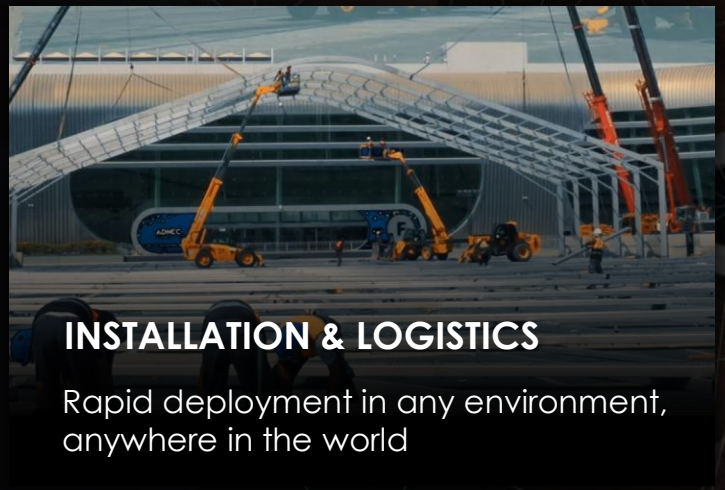

MANUFACTURING & SUPPLY

In-house production with international quality standards

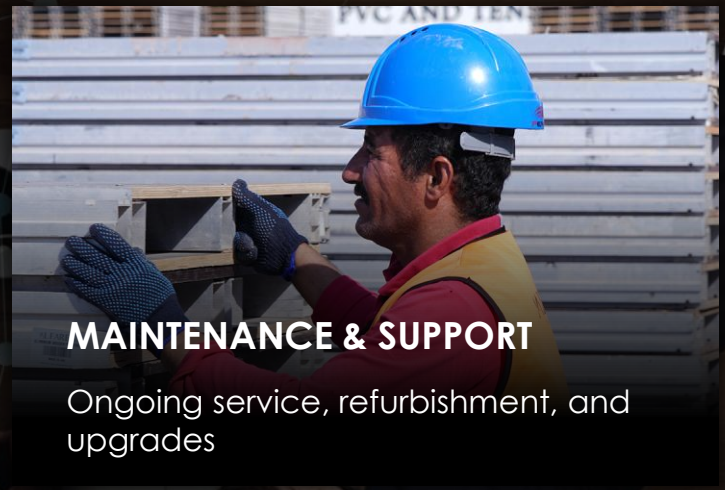

PROJECT MANAGEMENT

Seamless planning, coordination, and on-time delivery

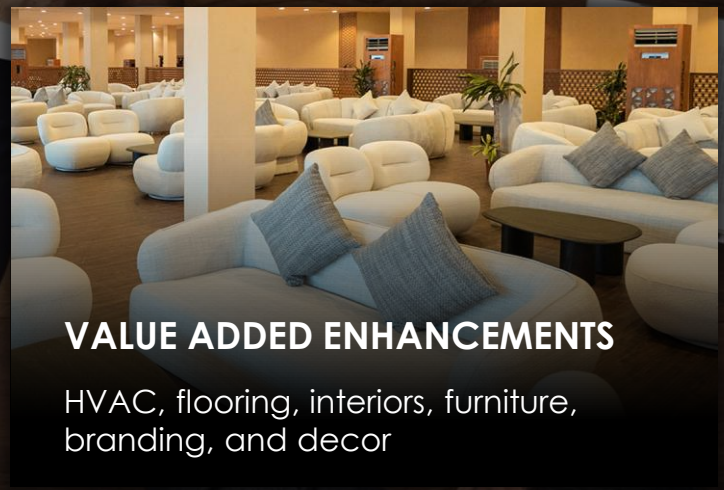

INSTALLATION & LOGISTICS

Rapid deployment in any environment, anywhere in the world

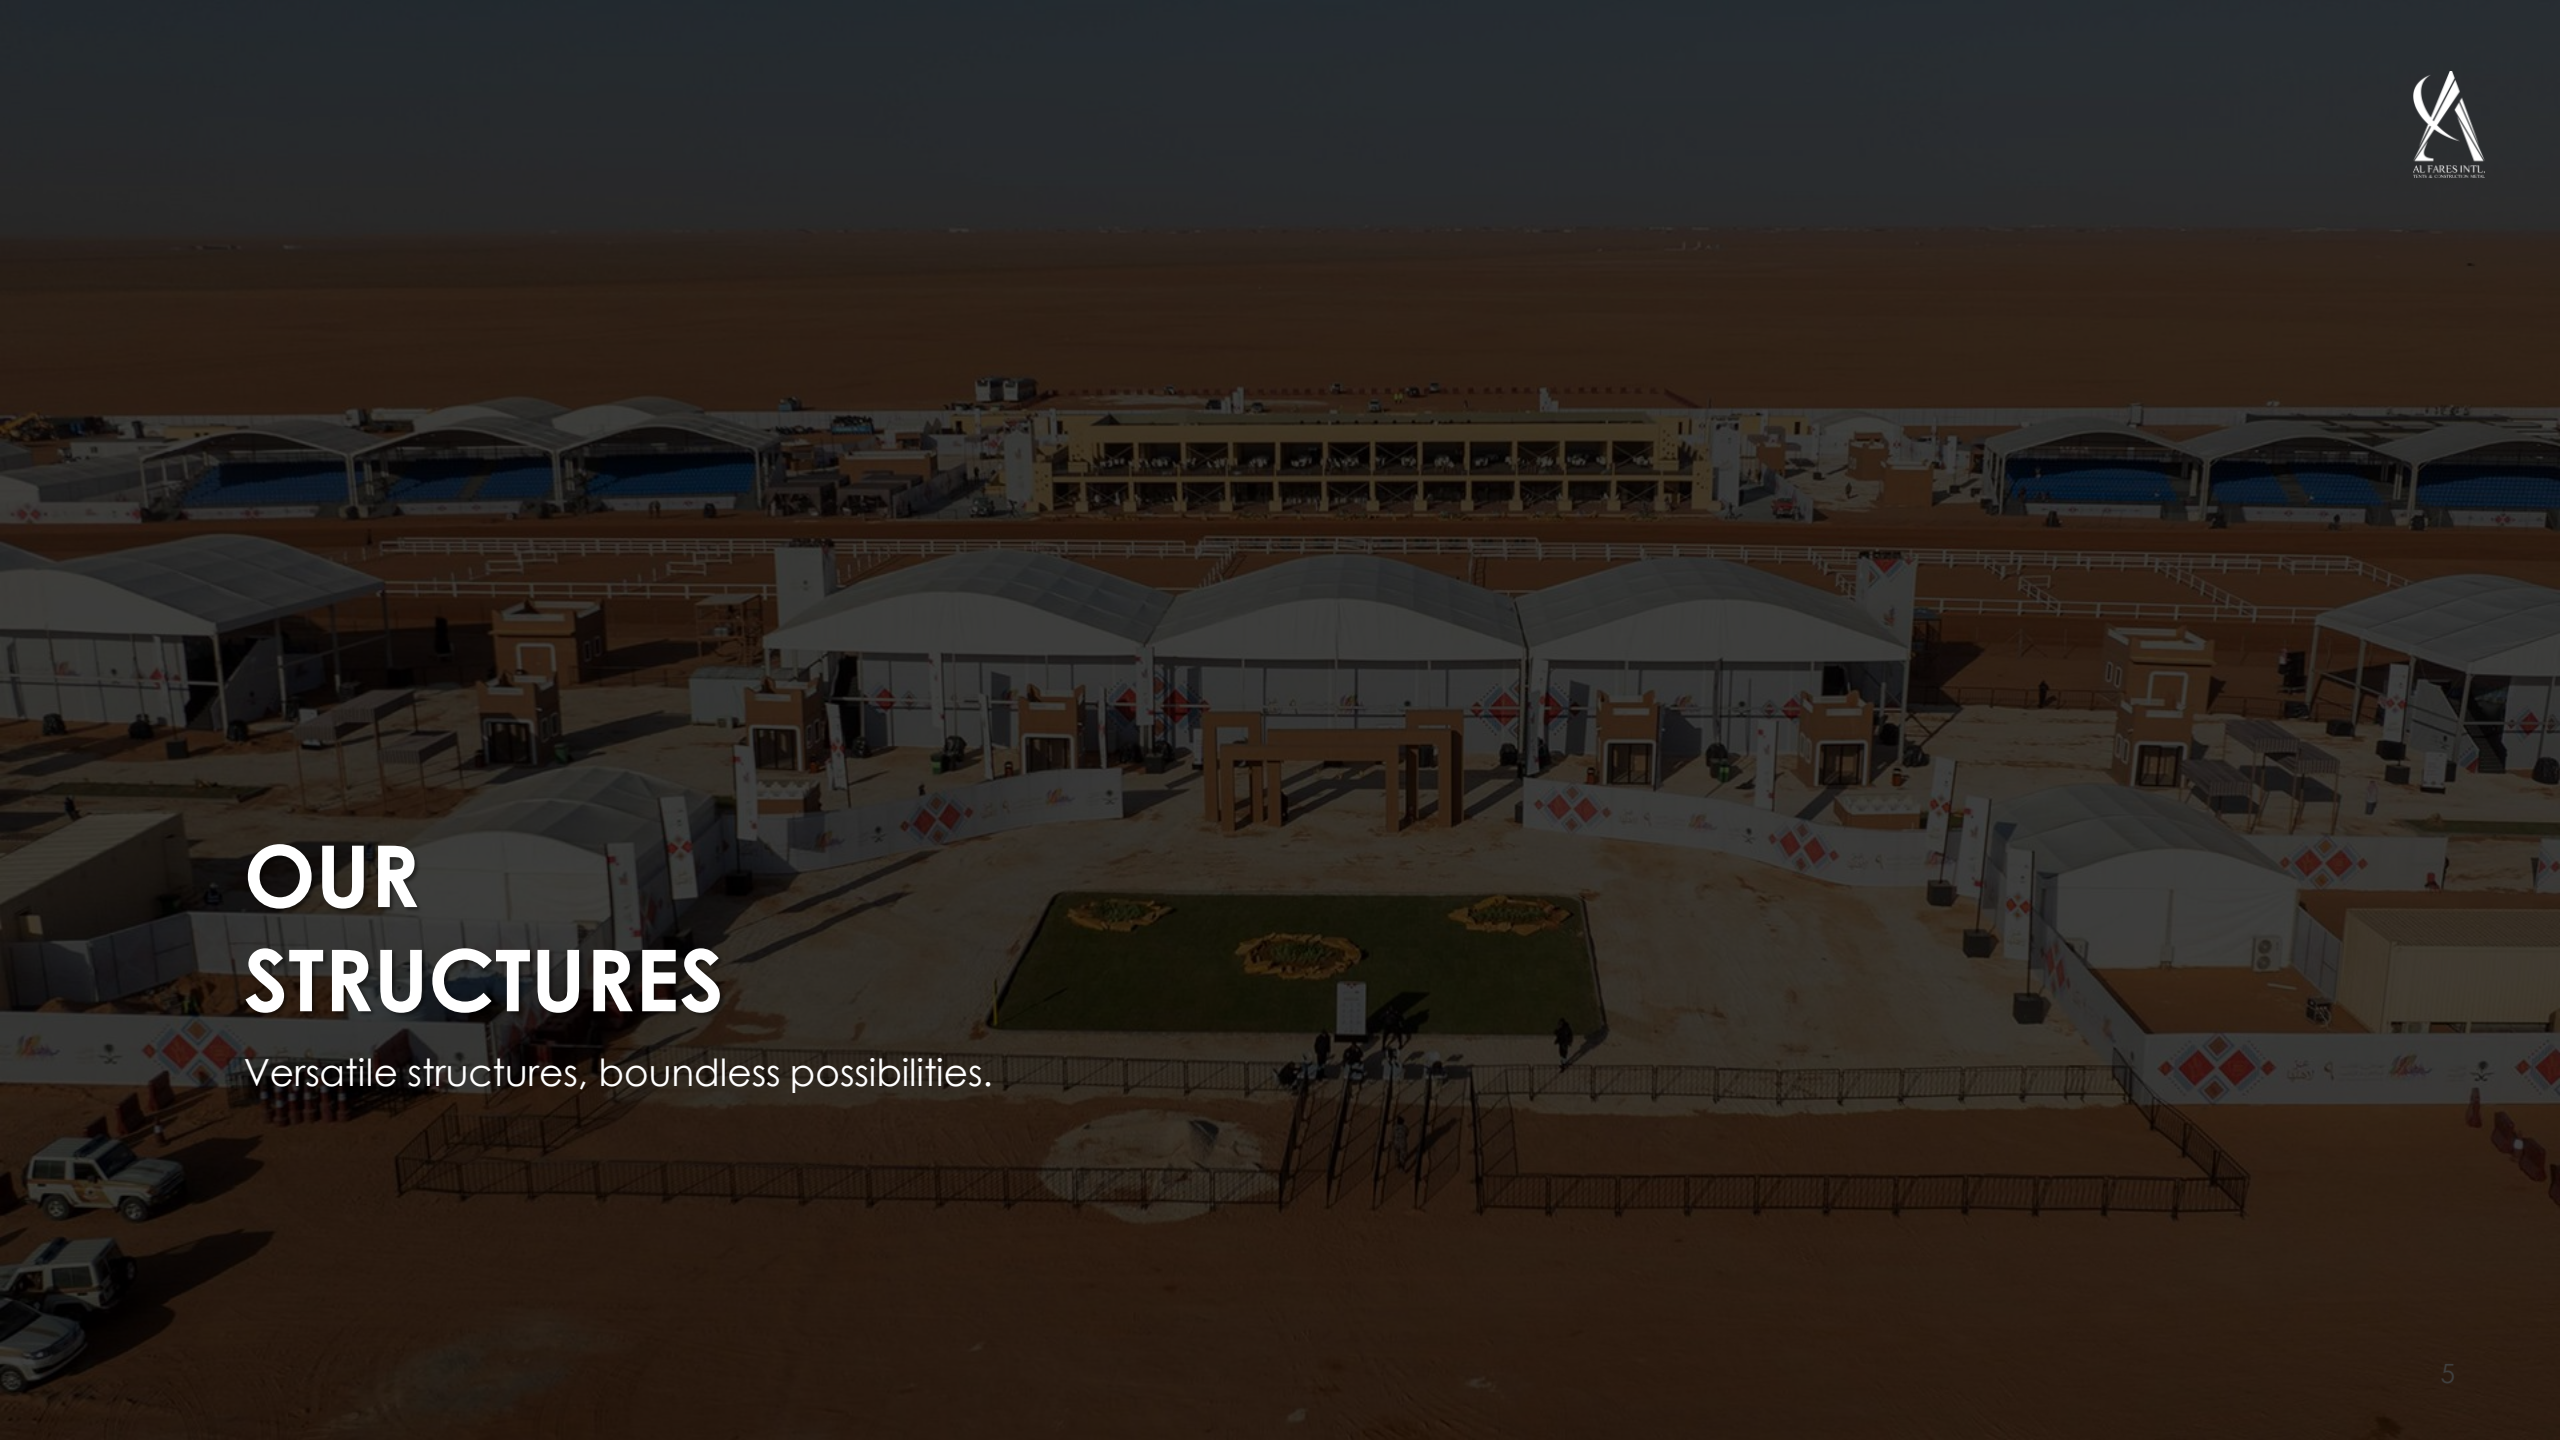

MAINTENANCE & SUPPORT

Ongoing service, refurbishment, and upgrades

VALUE ADDED ENHANCEMENTS

HVAC, flooring, interiors, furniture, branding, and decor

OUR STRUCTURES

Versatile structures, boundless possibilities.

ARCH TENT

Elegant Design, Unmatched Versatility

Striking Arch Design
Features a distinctive arch-shaped roof, offering a modern and dynamic look that enhances any event.

Robust Construction
Equipped with a self-supporting aluminium frame and weather-resistant materials, ensuring durability and stability.

Hajj 2026

Supporting the Annual Pilgrimage with Scale, Precision, and Local Manufacturing

- Massive-Scale Infrastructure in Arafat: Delivered over 200,000 square meters of tented infrastructure across 23 locations, accounting for 15% of Arafat's total tented setup for millions of pilgrims.
- Engineered for Speed and Safety: Successfully executed the entire multi-location project within an ambitious 50-day timeline with zero recorded injuries, maintaining the highest standards of workforce safety.
- Driven by Local Value Creation: Manufactured and built in the Kingdom of Saudi Arabia, utilizing 70% locally sourced structural, electrical, and mechanical components to support the national industrial ecosystem.
- Multidisciplinary Execution at Scale: Deployed a coordinated team of over 700 professionals—including engineers, project managers, and technicians—managing manufacturing, logistics, and installation simultaneously.

COP29

United Nations Global Climate Summit, Engineered for Scale and Resilience

A city-scale temporary setup in Baku, Azerbaijan. 112,000 sqm of modular infrastructure built to host over 50,000 attendees

Built to perform in demanding environmental conditions. Designed to withstand high winds, low temperatures, and continuous operational load.

Complete structural delivery by Alfares International Tents. From design to installation of Royal and Arch Tent systems, featuring reinforced flooring and fully tailored layouts.

Delivered at speed without compromising performance. Ensuring uninterrupted operations for one of the world's most high-profile climate conferences.

COP28

United Nations Global Climate Conference, Sustainable Modular Setups

Sustainable mega-event in Dubai, UAE.
100,000+ sqm of temporary structures delivered.
Hosted global leaders, 70,000+ daily attendees.

Deliver eco-friendly infrastructure on a massive scale under strict sustainability and safety standards.

Alfares International Tents designed, manufactured, and installed modular pavilions, exhibition halls, and hospitality zones using recyclable materials and energy-efficient HVAC systems.

Enabled COP28 to showcase UAE's Net Zero vision, positioning Alfares International Tents as the region's leader in sustainable event infrastructure.

FORMULA 1

Race-ready Infrastructure with Luxury Hospitality Areas

Annual global motorsport event.
20,000+ sqm of premium hospitality structures.
Ultra-fast turnaround time.

Deliver luxury VIP lounges and operational zones within a high-pressure, time-sensitive build schedule.

Alfares International Tents deployed multi-storey structures, climate-controlled pavilions, and modular hospitality zones tailored for elite guests and sponsors.

Created a seamless, world-class experience for attendees and reinforced Abu Dhabi's global reputation for hosting premium sporting events.

FORMULA E

High-tech Event Solutions with Eco-alignment

International motorsport event aligned with sustainability. 15,000+ sqm of modular event spaces. Delivered in partnership with eco-driven organizers.

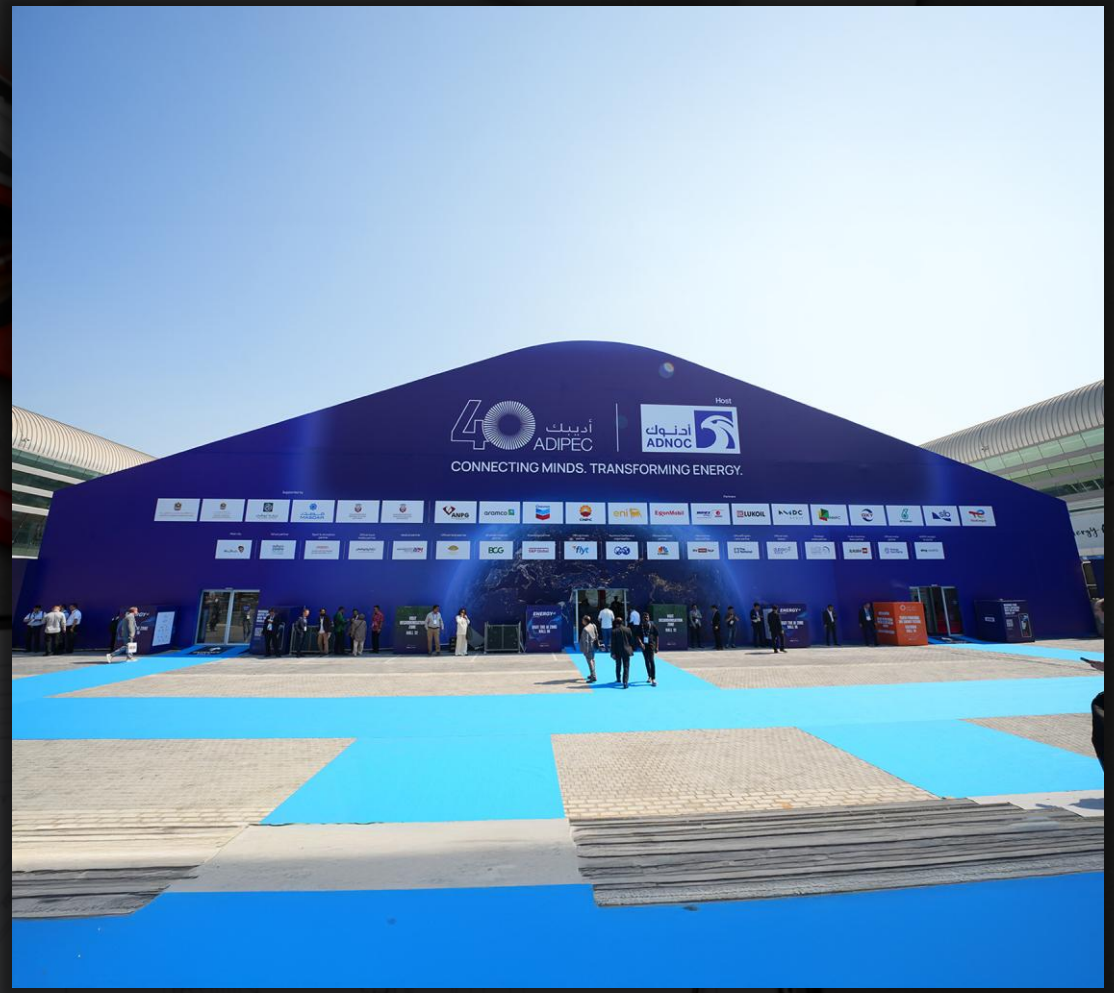

Develop sustainable, tech-integrated infrastructure to align with Formula E's green commitment.

Alfares International Tents provided modular event spaces with smart energy systems, eco-friendly fit-outs, and rapid deployment to support international media and hospitality functions.

Strengthened Formula E's sustainability credentials while highlighting Alfares International Tents' expertise in green logistics and eco-aligned design.

ADIPEC

Mega Oil & Gas Exhibition, Large-scale Tent Infrastructure

World's largest oil & gas exhibition.
30,000+ sqm of exhibition and networking space.
Hosted 160,000+ attendees from 160 countries.

Deliver large-scale exhibition halls and networking lounges within tight deadlines and strict safety compliance.

Alfares International Tents executed custom-built halls, modular meeting zones, and climate-controlled spaces tailored for global industry leaders.

Positioned ADIPEC as a flawless global showcase for energy innovation while demonstrating Alfares International Tents' capacity for mega-exhibition infrastructure.

RED SEA FESTIVAL

Remote Mega-development Infrastructure

Flagship Saudi Vision 2030 development.
25,000+ sqm of remote infrastructure.
Harsh desert & coastal environment.

Build in remote, logistically challenging conditions with sustainability and resilience as priorities.

Alfares International Tents mobilized heavy logistics, modular camps, and climate-adapted structures, ensuring durability under extreme weather.

Enabled the Red Sea Project to advance critical development phases on time, cementing Alfares International Tents as a trusted partner in Vision 2030 mega-projects.

WORLD DEFENSE SHOW

Military-grade, Rapid Deployment Structures

International defense & security showcase.
20,000+ sqm of secure exhibition space.
Hosted 600+ exhibitors from 40+ countries.

Provide military-grade, secure infrastructure capable of handling international delegations and sensitive operations.

Alfares International Tents delivered robust modular halls, command centers, and secure hospitality zones with high safety standards.

Established World Defense Show as a premier global defence platform while underlining Alfares International Tents' ability to deliver complex, high-security event infrastructure.
